DETAILED ACTION

Drawings

1. The drawings were received on 26 August 2003. These drawings are unacceptable.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 6-9, 11, and 13-18 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 872,124 to Hammarén.

Hammarén discloses a bicycle seat that includes all the limitations recited in claims 1-4, 6-9, 11, and 13-18. Hammarén shows a bicycle seat having a first member (Fig. 1) with forward and rearward portions c,a (Fig. 1) to received a user's buttocks, a second member (Fig. 1) with forward and rearward portions d,b (Fig. 1) to received a user's buttocks, and two connection members r,q (Fig. 1) disposed between the forward portions and rearward portions of the first and second members wherein the first and second forward portions are *capable* of being disposed together without any forward gap therebetween and the first and second members are asymmetrical halves of the

seat that do not interlock and the connection members have a rod m,n,o,p (Fig. 1) in combination with a bolt m',n',o',p' (Fig. 1) and mounted to a seat bar or rails f (Fig. 1).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hammarén in view of U.S. Patent No. 6,290,291 B1 to Kojima.

Hammarén discloses a bicycle seat that is basically the same as that recited in claims 5 and 12 except that the connection members lack turnbuckles, as recited in the claims. Kojima shows a bicycle seat similar to that of Hammarén wherein the connection member 18 (Fig. 3) has a turnbuckle 54 (Fig. 3) in combination with two screws 56a,56b (Fig. 3). Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the bicycle seat of Hammarén such that the connection members have turnbuckles in combination with two screws, such as the bicycle seat disclosed in Kojima. One would have been motivated to make such a modification in view of the suggestion in Kojima that the seat having a connection member with a turnbuckle allows for an infinitely adjustable seat with widths varying between a city-style saddle and a road racing-type saddle.

Art Unit: 3636

The rejection under 35 USC 103(a) drawn toward claims 5 and 12 was argued solely on the premise that the cited art does not teach or suggest the seat defined in amended claims 1 and 8, and as a result the above 35 USC 103(a) rejection of claims 5 and 12 remains.

Upon consideration of the Applicant's arguments, Examiner maintains the rejections of claims 1-9 and 11-18.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
